F&P Makes Flow Tubes

We're glad you're familiar with so many F&P flow measurement and control instruments, but we'd like to be sure that you know we make *flow tubes*, too. In fact, we've been making them for more than a decade. Our standard differential producing flow tubes, the flanged cast iron and single-flanged types, have been used in thousands of water and wastewater systems, pumping stations, and industrial plants. The latest addition to the line is our new Venturi Flow Tube designed to serve equally well on clean fluids and on dirty particle-laden fluids.

Now that you know—when you need a rugged, economical, accurate flow tube with low permanent head loss, for either liquid or gas service, come right to F&P. For technical literature, call or write Fischer & Porter Company, 43 County Line Road, Warminster, Pa. 18974. Phone 215-674-6331.

FISCHER & PORTER

We Didn't Mean to keep it a Secret

Schrader, Carl F. ..... Nov. 93
Sirianni, Josef ..... Nov. 44
Shell, Gerry ..... May 37
Smallwood, Herbert ..... Sept. 100
Smith, Herman J. ..... Jan. 22
Smith, J.L. ..... Sept. 46
Stilley, Sidney H. ..... Nov. 102
Stone, Ralph ..... Sept. 100
Storck, William J. ..... July 20, July 35, Dec. 35
Sullivan Jr., John P. ..... Oct. 35
Sutton, Stanley H. ..... May 52
Thompson, A. Frederick ..... July 82
Tofflemire, T.J. ..... Sept. 78
Turtle, Q.C. ..... Sept. 51
Vandervoort, Thomas ..... Sept. 28
Vaseen, V.A. ..... Jan. 38
Vasilik, Greg ..... Nov. 67
Venable, John H. ..... May 45
Vonic, M. ..... Jan. 26, Dec. 48
Walrath, David ..... Feb. 38
Weaver, J.H. ..... Nov. 73
Weist, Gordon J. ..... Feb. 21
Wesner, G.M. ..... May 24, June 46
Wexler, Howard M. ..... June 34
White, Robert L. ..... July 77
Wiedeman, John H. ..... July 56
Wilke, Douglas ..... March 18
Williams, T.C. ..... Nov. 52
Wittenmyer, James ..... April 25
Woodward, Richard L. ..... July 42
Wubbena, Robert L. ..... Jan. 25
Wyckoff, Bruce M. ..... Nov. 39
Youngsworth, W.G. ..... June 40

Value engineering: Make sure the costs are right ..... June 34
PL 92-500 vs. local priorities ..... July 72
Reliability is key to power system success ..... Aug. 34
Twin Cities plant expands with no hitches ..... Sept. 28
Regional treatment plant follows disaster ..... Sept. 32
Fish will swim in wastewater at new lab ..... Sept. 75
Small plant does good job on phosphorus ..... Sept. 78
No bypass, zero discharge plant protects Maui coastline ..... Nov. 31
Pretreatment helps Niagara cut costs ..... Nov. 44
Thermal conditioning cuts energy load ..... Nov. 47
Water plant plans zero discharge ..... Nov. 67
Modules permit easy expansion ..... Nov. 73
Modern design updates softening plant ..... Nov. 75
Gainesville gets sophisticated ..... Nov. 83
Modular design provides for seasonal flows ..... Nov. 93
Georgia plant is a peach ..... Nov. 106
Many design problems overcome in Staten Island plant ..... Dec. 57

POLLUTION CONTROL
Minimal cost plant cleaning up harbor ..... Jan. 16
Sewer design—A big job in a big city ..... Jan. 22
Albuquerque plant designed with computer in mind ..... Jan. 32
Before removing nutrients . . . reanalyze Lake Tahoe ..... Feb. 17
Nitrogen removal depends on form nutrient takes ..... Feb. 27
Aquiculture—new broom cleans up wastewater ..... Feb. 38
Removal vs. benefits: It can be too costly ..... Feb. 42
There is something new under the sun ..... March 18
New York takes another giant step .. March 24
Who says treatment plants have to be ugly? ..... April 20
Underlake sewer spurs resort development ..... May 70
Wastewater's future is cloudy ..... July 20
Reaching toward 2076 A.D. ..... July 26
Innovation is an old idea—with a big future ..... July 42
PL 92-500 vs. local priorities ..... July 72
AWT: The future depends on understanding ..... July 82
Foam is stopped at minimal cost .... Sept. 100
Everything is ducky at Vandenberg AFB ..... Oct. 43
Town cuts energy use in pump station ..... Oct. 47
Phosphorus is removed at low cost ... Nov. 52
Will 1977 be the year for water? ..... Dec. 26

POWER SYSTEMS
Reliability is key to power system success ..... Aug. 34

PUMPS AND PUMPING
New York takes another giant step .. March 24
House is a home for pump ..... April 35
Big intake is coming to New Orleans .. May 20
What do you do when the plant gets old? ..... July 84
Reliability is key to power system success ..... Aug. 34
Town cuts energy use in pump station ..... Oct. 47
Pumping station blends into artists' colony ..... Nov. 96
Town solves complex pumping station problems ..... Nov. 99

RECARBONATION
AWT energy needs a prime concern .. May 24

REGIONALISM
'Living filter' perks up regional system ..... June 18
Regional treatment plant follows disaster ..... Sept. 32
'Occoquan Policy' begets regional AWT system ..... Sept. 65
Outfall has unusual administration .... Nov. 56
Modules permit easy expansion ..... Nov. 73

RESEARCH
Aquiculture—new broom cleans up wastewater ..... Feb. 38
Who says treatment plants have to be ugly? ..... April 20
Nitrates: What's happening in Britain ..... April 26
Designing microscreens? Here's some help ..... April 41
Submerged static aerators: What are they all about? ..... May 37
What's best for disinfection? ..... May 52
Fish will swim in wastewater at new lab ..... Sept. 75

RESERVOIRS
Nip taste and odor in the bud ..... Feb. 21
Rural community gets first-class treatment ..... Nov. 89

REUSE
Wastewater's future is cloudy ..... July 20

ROUNDTABLE
What are you worth? ..... Jan. 13
Sewer inspection: Checking it out ..... April 16
How do you measure your water? .... Aug. 14
How safe are our water sources? .... Sept. 22

SAFETY
Town maintains sewers despite 'sugar sand' ..... May 45

SAMPLING
Instantaneous metering aids activated sludge plant ..... Aug. 19

SANITARY LANDFILLS
Sludge—where will we put it? ..... July 60

SECONDARY TREATMENT
Minimal cost plant cleaning up harbor ..... Jan. 16
Albuquerque plant designed with computer in mind ..... Jan. 32

SEWERS
Sewer design—A big job in a big city ..... Jan. 22
Town maintains sewers despite 'sugar sand' ..... May 45
Underlake sewer spurs resort development ..... May 70
Computer halts flooding complaints ... June 27
Reaching toward 2076 A.D. ..... July 26
Innovation is an old idea—with a big future ..... July 42
State park gets good treatment ..... Nov. 65
When is infiltration/inflow excessive? ..... Nov. 102

SLUDGE DISPOSAL
Sludge—where will we put it? ..... July 60
Regional treatment plant follows disaster ..... Sept. 32
Subsurface injection solves sludge problems ..... Sept. 46
After ocean disposal, what? ..... Sept. 59
Fluidized bed reactors ease problems ..... Oct. 56
Pretreatment helps Niagara cut costs ..... Nov. 44
Water plant plans zero discharge ..... Nov. 67
Keeping up with sludge at WPCF ..... Dec. 35
Is there a sludge market? ..... Dec. 40

SLUDGE HANDLING
This plant can use five sludge processes ..... Jan. 26
Subsurface injection solves sludge problems ..... Sept. 46
What's best for sludge transport? ..... Oct. 20
Digestion is a good egg in Los Angeles ..... Oct. 28
Fluidized bed reactors ease problems ..... Oct. 56
Fresno adopts 'outstanding' management plan ..... Nov. 39
Water plant plans zero discharge ..... Nov. 67
Modular design provides for seasonal flows ..... Nov. 93

SOLIDS
Designing microscreens: Here's some help ..... April 41

STANDARDS
Plastic pipe is growing up ..... June 40
Wastewater's future is cloudy ..... July 20

STORAGE
Standpipe is built 'upside down' ..... April 25

STORMWATER
Fairfax County works to solve runoff problems ..... Sept. 38

TASTES AND ODORS
Nip taste and odor in the bud ..... Feb. 21
Arlington works to stop taste and odors ..... Feb. 32
Proper controls ensure polymer success ..... Sept. 91

TERTIARY TREATMENT
Georgia plant is a peach ..... Nov. 106

TESTING
Albuquerque plant designed with computer in mind ..... Jan. 32
How high will utility costs climb? .... March 41
Instantaneous metering aids activated sludge plant ..... Aug. 19
Monitoring program for waterborne chemicals urged ..... Aug. 26

THEORY
Protein from wastewater—A source of food? ..... Jan. 38

TREATMENT PLANTS
'Living filter' perks up regional system ..... June 18

TREATMENT PLANTS (WATER)
A revolutionary idea—water for the people ..... July 16

TURBIDITY
Proper controls ensure polymer success ..... Sept. 91

VACUUM FILTRATION
Modular design provides for seasonal flows ..... Nov. 93

WASTEWATER CHARACTERISTICS
Nitrogen removal depends on form nutrient takes ..... Feb. 27
Food Wastes: Unique conditions force treatment decisions ..... Sept. 83

WASTEWATER DISPOSAL
Spray irrigation solves disposal problem ..... Oct. 31
Everything is ducky at Vandenberg AFB ..... Oct. 43
No bypass, zero discharge plant protects Maui coastline ..... Nov. 31
Outfall has unusual administration .... Nov. 56
Modules permit easy expansion ..... Nov. 73
Modular design provides for seasonal flows ..... Nov. 93
AWT at Woodland, Texas ..... Dec. 23

WASTEWATER TREATMENT
This plant can use five sludge processes ..... Jan. 26
Denver's headworks reflects complexity of system ..... Oct. 63

WATER POLICY
Keeping New York in water ..... Jan. 19
Reaching toward 2076 A.D. ..... July 26

WATER QUALITY
Nip taste and odor in the bud ..... Feb. 21
Arlington works to stop taste and odors ..... Feb. 32
Nitrates: What's happening in Britain ..... April 26

WATER RESOURCES
Where will we find the water? ..... July 50

WATER SOFTENING
Modern design updates softening plant ..... Nov. 75
Gainesville gets sophisticated ..... Nov. 83

WATER SUPPLY
Keeping New York in water ..... Jan. 19
Arlington works to stop taste and odors ..... Feb. 32
Standpipe is built 'upside down' ..... April 25
House is a home for pump ..... April 35
Big intake is coming to New Orleans .. May 20
A revolutionary idea—water for the people ..... July 16
Innovation is an old idea—with a big future ..... July 42
Where will we find the water? ..... July 50
What do you do when the plant gets old? ..... July 84
Pumping station blends into artists' colony ..... Nov. 96
Town solves complex pumping station problems ..... Nov. 99

WELL SUPPLIES
House is a home for pump ..... April 35

WPCF
Many changes urged for PL 92-500 . March 34
Will 1977 be the year for water? ..... Dec. 26
Keeping up with sludge at WPCF ..... Dec. 35
